Team Project Setup Wizard /Project/ChangeCounter

This wizard will help you to join a team project.

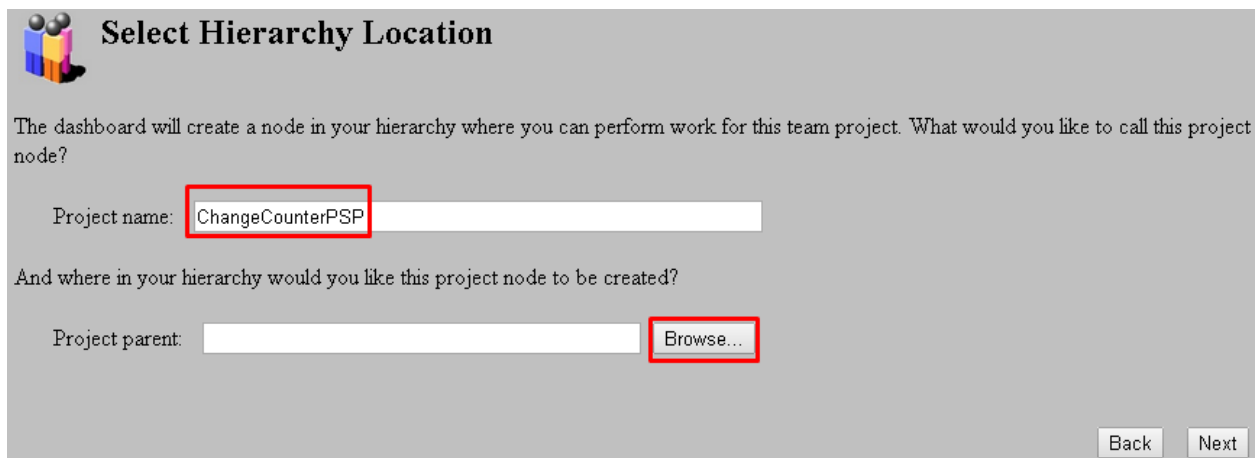

Please ensure that you have the dashboard running, then click "Next" to continue.

Next

en windows pc la ruta tiene la forma. El texto en rojo se reemplaza por el nombre de la maquina
<http://Gabriel-PC:3000/Project/ChangeCounter/+/TSP/setup/join.shtm>

en mac tiene la forma

<http://CarlosRoaMacBook.local:3000/Project/ChangeCounter/+/TSP/setup/join.shtm>

Select Hierarchy Location

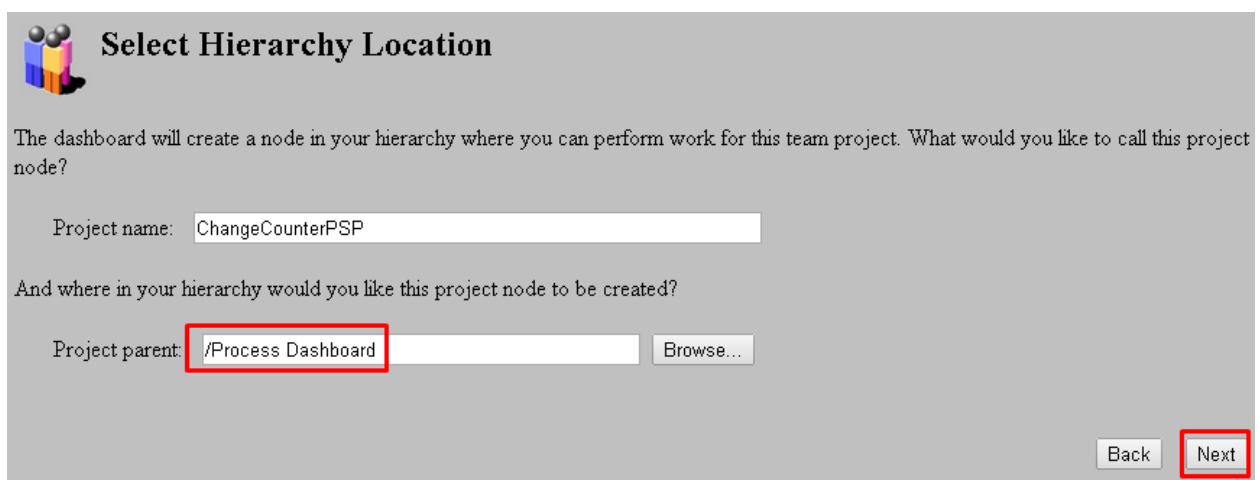

The dashboard will create a node in your hierarchy where you can perform work for this team project. What would you like to call this project node?

Project name:

And where in your hierarchy would you like this project node to be created?

Project parent:

Enter Your Name and Initials

On a team project, individual team members are often identified by their initials. Please enter your initials in the space below.

Your Initials: GM

Your name is also important for team project planning purposes. Please enter/edit your name in the space below.

Your Name: Gabriel Martinez Rojas

Back

Next

Las iniciales deben obligatoriamente coincidir con las de la siguiente tabla:

Name	Initials
David Abril	DA
Felipe Fagua	FF
Gabriel Martinez	GM
Ingrid Echavarria	IE
Paula Castellanos	PC
Carlos Roa	CR

/Process Dashboard/ChangeCounterPSP

Select Schedule Name

The dashboard will create an earned value schedule for this project.

What would you like to call the schedule?

Schedule Name: Schedule

Unable to Locate Team Data Directory

According to the team dashboard, data for this project should be exported to the following directory:

```
\Users\CarlosRoa\proyectotsp\data\ht77arzg
```

Unfortunately, that directory doesn't appear to exist. To resolve this problem, you may need to map a network drive. Contact your team leader for more help.

If you would like to specify the location of the Team Data Directory manually, [click here](#).

After you address this problem, you can click the "Retry" button and the dashboard will try again.

Retry

seleccionar la direccion física a la carpeta id del proyecto.

/Process Dashboard/ChangeCounter

Success

The team project has been created and set up successfully!

Adicionalmente en el repositorio existe una carpeta llamada **documentos_complementarios** con información adicional.
